ABOUT ME

I am a senior student majoring in Information Technology and Engineering (ITE) at the Royal University of Phnom Penh (RUPP), with a strong focus on web development and project management.

EDUCATION

Bachelor of Engineering in Information Technology and Engineering　　**March 2022 - June 2025**
Royal University of Phnom Penh – Phnom Penh.
- Courses: Data Structures & Algorithms, Java OOP, Web Applications, C++ Program Design.

PROJECT

Online Computer Store – Website　　　　　　　　　　**Sep 2023 - Feb 2024**
- Lead team of 3: organized meetings, delegated tasks, helped teammates debug, etc., leading to a final grade of 100%.
- Implemented the entire login system to allow CRUD operations on the product (ReactJS, NodeJS, HTML, CSS).
- Designed the overall website concept/layout, implemented responsive home & product pages and deployed on Vercel.

School Management System – GitHub　　　　　　　　**March 2024 - May 2024**
- Create a system for school to organize classes, teachers and students easier. The system allow user to create new class add teachers, students and subjects. For teacher role can mark attendance and define score for each student. And student can view the attendance, score and their grade.
- Lead team of 4: organized meetings, delegated tasks, helped teammates debug, etc...
- Implemented the entire login system to allow CRUD operations on the classes, teacher, student, list (ReactJS, PHP(Laravel), MySQL, HTML, CSS).
- Designed the overall website concept/layout, implemented responsive home & product pages.
